Final Source Questionnaire for ISSP Family 2002

New questions (N) = 27

Repeat questions (R) = 37

Repeat questions have question numbers for 1994 in brackets.

Notes:

- 1) The 'R's , 'N's, and the 1994 question numbers for the repeat questions are just meant to alert members to the fact that certain questions/items have already been asked in earlier modules. You should not retain this information in your questionnaire.**
- 2) ISSP policy on questions which you have already translated for an earlier module is that members should not tinker with wording to make slight improvements. Only real mistakes in translation should be changed. These should be clearly documented in your study monitoring report. If in doubt, contact the methodology committee convenor, Janet Harkness, at ZUMA.**
- 3) All the substantive questions must be asked and asked in the order presented here.**
- 4) All the required background variables must be included in your fielding (not in a prescribed order) and must cover the information required, as outlined in the Archive guidelines.**
- 5) If you have questions about translation or any other aspect of your implementation, please also contact the methodology committee convenor, Janet Harkness.**
